

Your logistic partner in the biggest port of Europe

We offer a complete range of international Freight Forwarding and eCommerce Fulfillment activities. Your reliable partner in an international gateway and network-structure to and from Europe and beyond. AAS Logistics is a specialist in the coordination and optimization of services that will generate added value.

• *Seafreight* (FCL / LCL / Ro-Ro / Breakbulk)

We have good connections with all major shipping lines such as Cosco, Maersk, CMA-CGM enabling us to cover the world. All shipping modalities are offered and served.

• *Consolidation*

Together with our overseas partner we can offer consolidation services between South East Asia and Europe vice versa.

• *Airfreight* (IATA / FIATA member)

With our office at Schiphol Airport we can serve your demands if shipments need to be sent by airfreight. We know that the decision for airfreight is usually made for urgency and we will therefore do all possible to avoid delays upon arrival. Our worldwide agents will assist and serve you in the same way.

• *E-Commerce logistics*

The rising tide of retailing via the internet is generating new challenges for effective order processing and distribution across borders. We can arrange a seamlessly integrated IT-platform to process the order data from your customers and enabling us to create consignments, which are the basis for picking, packing and barcode labeling. You may use your own designed warehouse facilities; we might as well provide you with access to a neutral eCommerce warehouse. The choice is yours.

On November 1st, 2019 we'll move to our brand new office and 40.000 square meter warehouse

• *Warehousing* (specialism hazardous products / Container Freight Station)

We can offer 40.000 square meter storage space including with the most classes hazardous cargo. The warehouse information and control system enables you to keep track of your orders and stock. EDI and real-time information have proven to be efficient in our business enabling us to give you status information at any time.

• *Value added logistics* (order picking, repacking, labeling, stock control, scanning, etc.)

We are proud to be able to meet all your demands as to the above, Everyone is able to handle your cargo in normal situation but can we adjust to abnormal situations. Yes we can!

• *Customs clearance* (latest online being offered enabling quick and efficient clearance)

With Rotterdam being the gateway to Europe customs handling is very important. Electronic connection direct with customs will enable us to arrange all necessary documentation in a second avoiding unnecessary delays. With the option of fiscal representation we can offer this service for all European customers which creates a big advantage to use Rotterdam as your port of entry.

• *Forwarding* (worldwide destinations available)

The end of the world is not far enough: wherever your merchandise needs to go, we can handle!

• *Rail / tank transport* (including hazardous cargo)

With the good rail connections from Rotterdam to the "hinterland" we have another option to deliver the cargo directly to your customer. This option is fast and financially interesting against the other modalities.

• *Project cargo*

A well set organization is needed to complete projects according to wishes. We are aware that the project is not finished until the last piece is arranged. Dedication and time investment is what we offer to complete the picture.

• *Door to door / just in time*

A very important issue in today's logistics. We offer our customer the complete package from door to door, no worries what so ever. Even just in time delivery can be arranged, what needs to be done, needs to be done in a professional way.

We offer complete solutions for logistic demands. With a large network of reliable partners we cover the world. We will gladly serve you in the best way we can.
